DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATION: Fit the ActiveGuard™ liner over bedding. Pull down on the edges of the liner to ensure a tight fit against the bedding. Place another surface such as a mattress, mattress pad, barrier encasement of bottom sheet over the mattress liner. Do not allow children to play with the mattress liner.

Washing the ActiveGuard™ liner removes the active ingredient and reduces the effectiveness of the product against bed bugs and dust mites.

Wash hands immediately after applying or fitting the ActiveGuard™ mattress liner.

TO KILL BED BUGS:

Apply as directed. Removing the mattress liner to vacuum is NOT required for liners installed for bed bugs.

TO KILL DUST MITES:

Apply as directed. After eight (8) weeks remove the ActiveGuard™ liner and vacuum your bedding thoroughly while ventilating the room. For best results, use new filters and fresh bags in your vacuum cleaner. If you suffer from dust mite induced allergies, have someone else vacuum your mattress.

Re-apply the ActiveGuard™ mattress liner on your bedding immediately (see instructions for applying or fitting a mattress liner), and then leave the mattress liner undisturbed for two (2) years. No need for further removal or vacuuming.

For best results, replace with a new ActiveGuard™ liner every eighteen months.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE:

Prior to installation, store product in cool, dry place away from direct sunlight.

DISPOSAL:

Non-refillable container. Do not reuse or refill this container.

Place in trash and offer for recycling, if available.

Discard used mattress liner in trash.
